# Organization: Army and Air Force Packages

## Equipment

- ❑ Issue – Capability requested did not reflect the actual capability needed. Deployed more equipment than actually needed.
- ❑ Fix –
  - Push modular capability in Emergency Management Assistance Compact (EMAC) arena instead of individual units by type.
  - Emergency Management is placing the SAD playbook in the Mutual Aid Support System (MASS 2.0) for other EMAC participating states to choose capability based packages instead of entire unit.

## Pay

- ❑ Issues – Soldiers received paper checks instead of direct deposit. Soldiers were out of state and could not cash the checks.
- ❑ Fix –
  - Verify SM's SF 1199 to ensure account information is correct, as well as listing legible SSN.
  - Submit SF 1199s to DOMS inbox prior to force package leaving armory.
  - FTS maintain digital SF 1199 to verify upon next event.

## DOMS Way Ahead

- ❑ SAD Playbook Revision –
  - Restructure of FPs to meet identified requirements.
  - Rack and stack concept on large FP.
  - Name changes, i.e. Winter Storm Catch Team (WSCT) to All Hazards Response Team (AHRT).
  
- ❑ JSOP Revision – 1 June 2015 last revision.

# GCSS-A Challenges, Solutions, Way ahead

**IMPORTANT: GCSS-A is not just the Supply Sergeant's system. Their position is only one user of many. GCSS-A is an automated sustainment system that supports the entire unit and it requires input from the entire unit.**

Primary and Alt Company Level Positions that are required in the system

CDR\CDR REP: 1SG, RDNCO (circle x permissions)

UNIT SUPPLY NCO: Supply SGT (Supply and work orders)

MAINT MANAGER: Motor SGT

MASTER DRIVER: MDAY and Training NCO (Dispatch and Training)

EQUIP PARTS SPEC: 91 or 92 series (dispatch and work orders)

Technicians can have dual persona but must be on UMR (2 AAs only, Shops are considered one TDAs)

# GCSS-A Challenges, Solutions, Way ahead

- In Oct NC will have to go through a re boot to update changes.
- JFHQ 350-2 Drivers Training will have to be revised to include GCSS-A.
- Taught in AIT \ NCOES.
- After 1OCT16 taught at PEC. This training will be for FTS personnel. The most effective training may be "over the shoulder" training. This will only become effective once we have sufficient SMEs to provide that training.
- OPORD 16-015 Logistics Action Plan (19-23 Sep 16 Ft Fisher) SUP NCOs
- OPORD16-067 GCSS-A MDAY Training Course (Monthly RTSM Ft Bragg)

# OCP/APFT Transition Plan (PCIE)

There will be no net fielding all will be a life cycle replacement

We currently have three ACU (Army Combat Uniforms) authorized  
UCP (Universal Camouflage Pattern)  
FRAC OEF pattern (AKA Multi Cam)  
OCP (Operational Camouflage Pattern)

If you are MDAY enlisted and your ACU is worn out your Supply SGT will order one and you will receive OCP instead of UCP (Wear out date for UCP ACU is 30SEP19)

If you are MDAY enlisted and your IPFU is worn out your Supply SGT will order one and Soldier will receive new APFU (Wear out date for IPFU is 30SEP17)

If your are an officer or AGR you buy both when they wear out just like you are now

**Commanders may authorize the wear of the mountain combat boots issued at RFI for wear with OEF-CP and OCP. The Mountain Combat Boots will not be replaced once unserviceable. Soldiers are still required to obtain the required quantity of clothing bag boots that are IAW DA PAM 670-1.**

# OCIE Challenges during OCP transition

NC CIF Warehouse has UCP pattern stock

NC CIF has no OCP or FRAC OIF OCIE currently stocked (unless Mob)

ALL Patterns of OCIE is authorized for wear over all patterns of PCIE

The rules to remember are:

1. clothing is PCIE and gear is OCIE
2. there are three ACU patterns (UCP, FRAC OIF, OCP)
3. AR 670-1 and DA Pamphlet 670-1 apply to all three patterns
4. all PCIE patterns worn have to match and all OCIE patterns worn have to match, but PCIE and OCIE does not
5. ECWCS (Extended Cold Weather System) system, Coveralls, FREE (Fire Resistant Environmental Ensemble) is all OCIE

# OPERATING IN A FISCALLY CONSTRAINED ENVIRONMENT

Stewardship is key. We must become good stewards of the resources entrusted to us. Effective stewardship balances our need to train and maintain a high state of readiness. We share both an environment of declining resources and the responsibility to consume fewer resources. We will operate in a cost culture environment enabling well-informed resource management decisions to ensure that taxpayer's dollars are spent wisely and responsibly.

What does that mean:

- Zero waste
- Effective management of consumables
- Requisition replacement parts on a one-for-one basis...no stock piling
- Requisition meals based on historical Soldier participation rate i.e. 80-85%

# NCOES NOTES

- E4 thru E7 and O3 (scheduled for +24 within 12 months of making Captain)
- Law states units will schedule 48 UTAs and 14 Active duty days
- Counseling to Soldiers needs to state "failure to meet standards or non- attendance to NCOES due to a flagging action will result in removal from their leadership position and reduction in rank."
- If Soldier does not go to NCOES for being flagged they will not do an AT. Instead, a one day AT order will be cut to help the state maintain high AT execution rates.
- G3T stated they will accept an ATTRS request when a Soldier is currently flagged. This will allow the state to get a reservation and it will give the Soldier and leadership a mark on the wall to aim at.
- During our Monday call in, once a month, the units discuss by name who is flagged and has a NCOES date. They must be very specific on what actions have been taken to get the Soldier in compliance and get well date.
- Don't ask Soldiers what works for them. This is their AT so schedule it so they can tell their employer.
- Any time BDE staff goes out to visit units we review their flagged roster.
- If a Soldier is flagged 60 days prior to school inform BDE so we can find an alternate to go.

MEMORANDUM FOR ALL STEEL BRIGADE LEADERS AND SOLDIERS

SUBJECT: Fitness Improvement

1. The NCO Corps is critical to the development of our junior Soldiers; commanders must ensure ample time is scheduled and documented on the units training schedule during each IDT to conduct section/squad/platoon physical fitness training. (Note the reference "individual" fitness training is excluded as this is a collective training event and shall include all members of the team). The investment commanders make by establishing at least 1 hour during the unit's drill will provide measureable benefits to the organization as a whole. Junior NCO leaders are the primary trainers, Senior NCO leaders teach, coach, and supervise the training event.
2. First Sergeants/Detachment Sergeants will identify and appoint on orders a designated fitness instructor who will develop and administer the unit's physical fitness plan. Intent is not just to tell Soldiers to improve their fitness but to show them how to improve and to make it a team building event.
3. Field Manual 7-22 provides specific "how to" guidance on the administration of the Army Physical Fitness Plan, but it is not the only source. There are many fitness improvement programs available to aid Soldiers and Leaders in their fitness improvement goals that should be considered such as [Cross Fit](#), [PX90](#), [Suspension Training](#), etc. Attached [US Army Graphic Training Aid \(GTA\) 7-8-003](#) and [100 Pushups/200 Sit-ups](#) will be used to supplement the development of the unit's fitness plan.
4. As with any plan there has to be commitment, First Line Leaders (FLL) will incorporate the use of a contract to obtain the Soldiers commitment and dedication to improving their general health and wellbeing. The use of 113 SB Form 7-22, Fitness Improvement Contract is the Brigade standard and will be incorporated in the individual Soldiers fitness plan. Feedback is essential to any training event; ensure AARs and feedback is conducted following each training event.
5. Nutrition is a key component to physical and mental fitness and shall be incorporated into the unit's fitness improvement plan. The [Army One Source](#) website provides valuable information and resources for Soldiers and Leaders alike. Assistance is also available through the 113th Sustainment Brigade Surgeon's office and should be requested through channels in writing.
6. The Army Master Fitness Trainer Course is another resource that shall be considered in the development of unit fitness trainers.

# 113TH STEEL BRIGADE FITNESS IMPROVEMENT CONTRACT

I \_\_\_\_\_, dedicate myself to improving my Physical and Nutritional Fitness. I recognize that it is my personal responsibility to develop healthy lifestyle habits that will contribute to my success. I understand that I must apply these healthy lifestyle habits each and every day and that the success I achieve will transform my mental outlook and the way I feel about myself. I challenge myself to do my best to eat healthy, whole foods every day, to get up and move around more, to make the time to exercise, and to keep a log of my progress. I promise to avoid perfectionism, and instead do the best I can as I practice my new lifestyle habits. By committing to this challenge, I am acknowledging the work, time and effort needed to achieve my goals. I also know that my rewards are improving the quality of my life, as well as sharing this gift of healthy living with my loved ones.
